

THE JETSETS

Private Aviation
Redefined

Who are The Jetsets?

The Jetsets is redefining the traditional fractional jet ownership experience from end-to-end.

The Jetsets is an exciting new Middle East-based aviation company that pledges to redefine private jet travel across the region and around the world.

Founded and based in the UAE to serve clients in the Middle East, Africa and the Indian Subcontinent

About Us

To give you an opportunity to own a share in a private jet at a fraction of the cost of owning one outright, creating a cost-effective solution to your discerning travel needs.

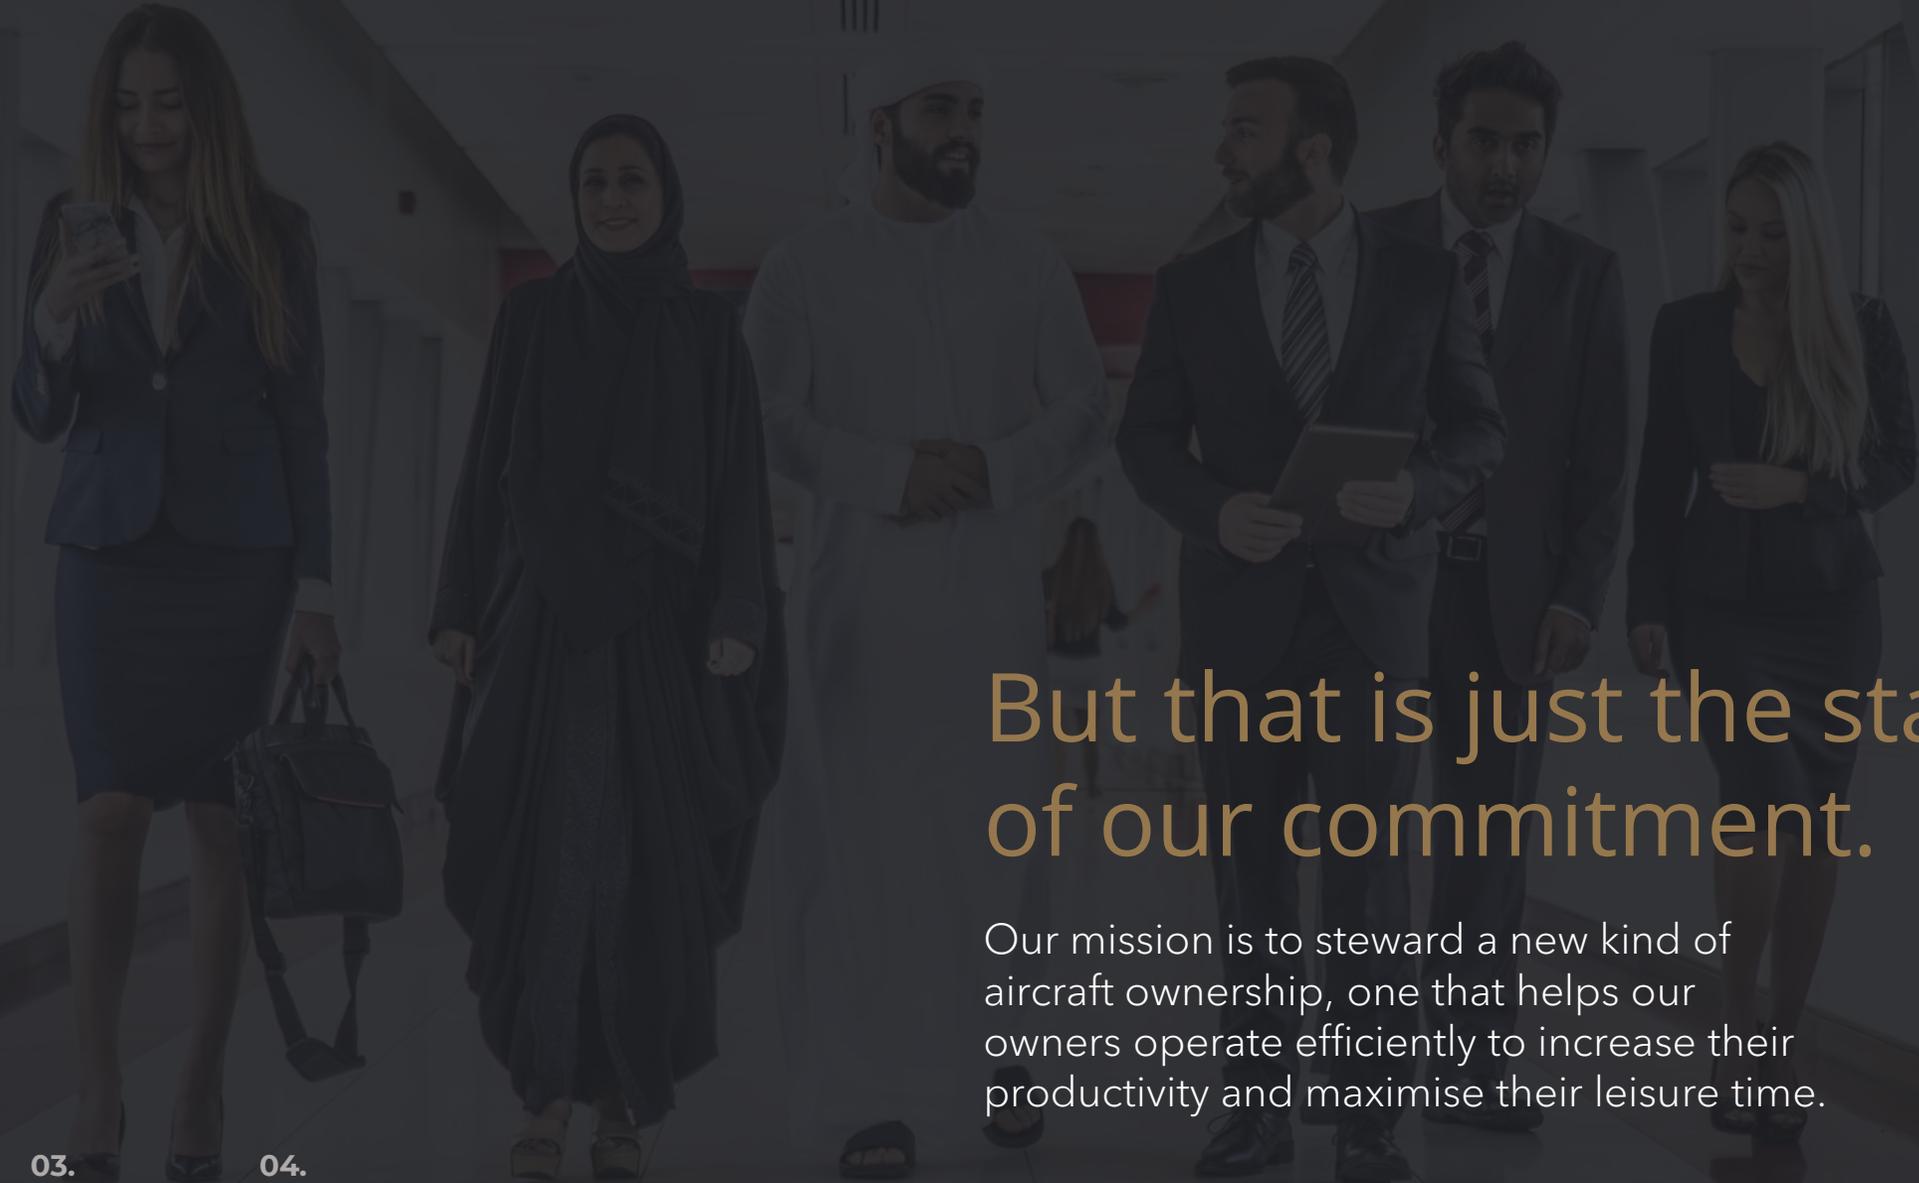

Our business model

The Jetsets is the new way to travel by private jet.

Whether you are a corporate traveler or someone who travels frequently with family, friends and colleagues.

International travel requirements are changing rapidly. Agility is the key. Service is the prerequisite. That's where we come in.

But that is just the start of our commitment.

Our mission is to steward a new kind of aircraft ownership, one that helps our owners operate efficiently to increase their productivity and maximise their leisure time.

02.
Our mission

03.
Service

04.
Ownership

03. Service

We've taken the traditional private jet ownership model, kept the best elements and then rethought just about everything else.

The result is service beyond owners' expectations, taking the private jet experience to a new level.

Travel globally
at very short notice

Your scheduling
Plan your trip around your preferred scheduling

VIP terminals
Queuing not required. Avoid the crowds and use private VIP terminals with limousine access to your jet

The safety
and well-being of our passengers, and flight crew is our top priority

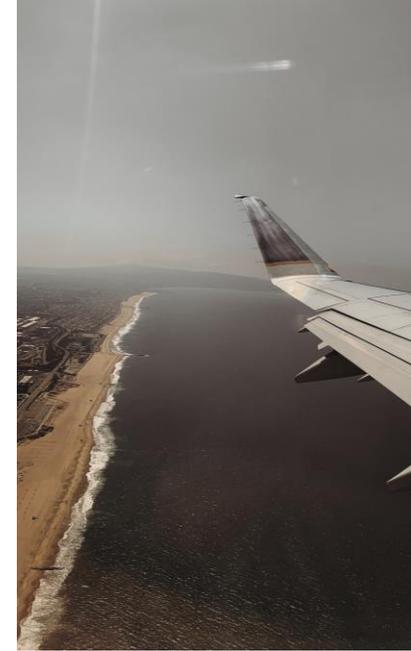

Qualified pilots
Pilots and crew are routinely trained to offer unparalleled service

Anonymity
Fly in complete discretion in your private aircraft.

We believe that the air travel element is only part of the job. Our end-to-end concierge service means that client's luxury experience starts upon leaving the front door and that they are supported throughout their stay in major business and leisure destinations around the world.

At The Jetsets our owners are our priority

From last-minute bookings, to ensuring optimal comfort and safety, we take great pride in delivering world-class luxury travel.

With us, travel is more than just the journey, it's a lifestyle.

We make every aspect of air travel fully bespoke with the promise of elite service and the highest operational standards both in air and on the ground.

What is fractional ownership?

Instead of owning the aircraft outright, fractional ownership enables you to purchase a share in a pristine private jet that matches your travel needs perfectly.

06.
Our Partners

Available in blocks of 100 hours per annum, your 10-year ownership plan with The Jetsets means that you can fly with whoever you choose, usually at short notice, to a destination of your choice.

Ownership provides exclusive access to the premiere business jet for **ten years**.

With fractional buy-in you are entitled to full personal use of the aircraft based on your preferred yearly travel pattern

Our Partners

Hours can be subsequently increased if desired

Certificate and legal documentation confirming your ownership provided

100 minimum flight hours per year

Very low capital outlay

The ownership affords you the following at no extra cost:

The highest regard will be taken to ensure your aircraft is maintained to the best standards, with the interior meticulously cleaned and sanitised prior to trips. We also provide one of the most comprehensive fleet insurance policies in the world

Expertly trained crew and attendants

Dedicated concierge team

A dedicated Travel Team

Travel with up to 11 guests at no extra cost

Your preferred wines, spirits and beverages

Maintenance and airworthiness of your aircraft

Exquisite in-flight dining and snacks

Personalised care and services in-flight

Ground transportation on arrival at destination

Lower Capital Costs

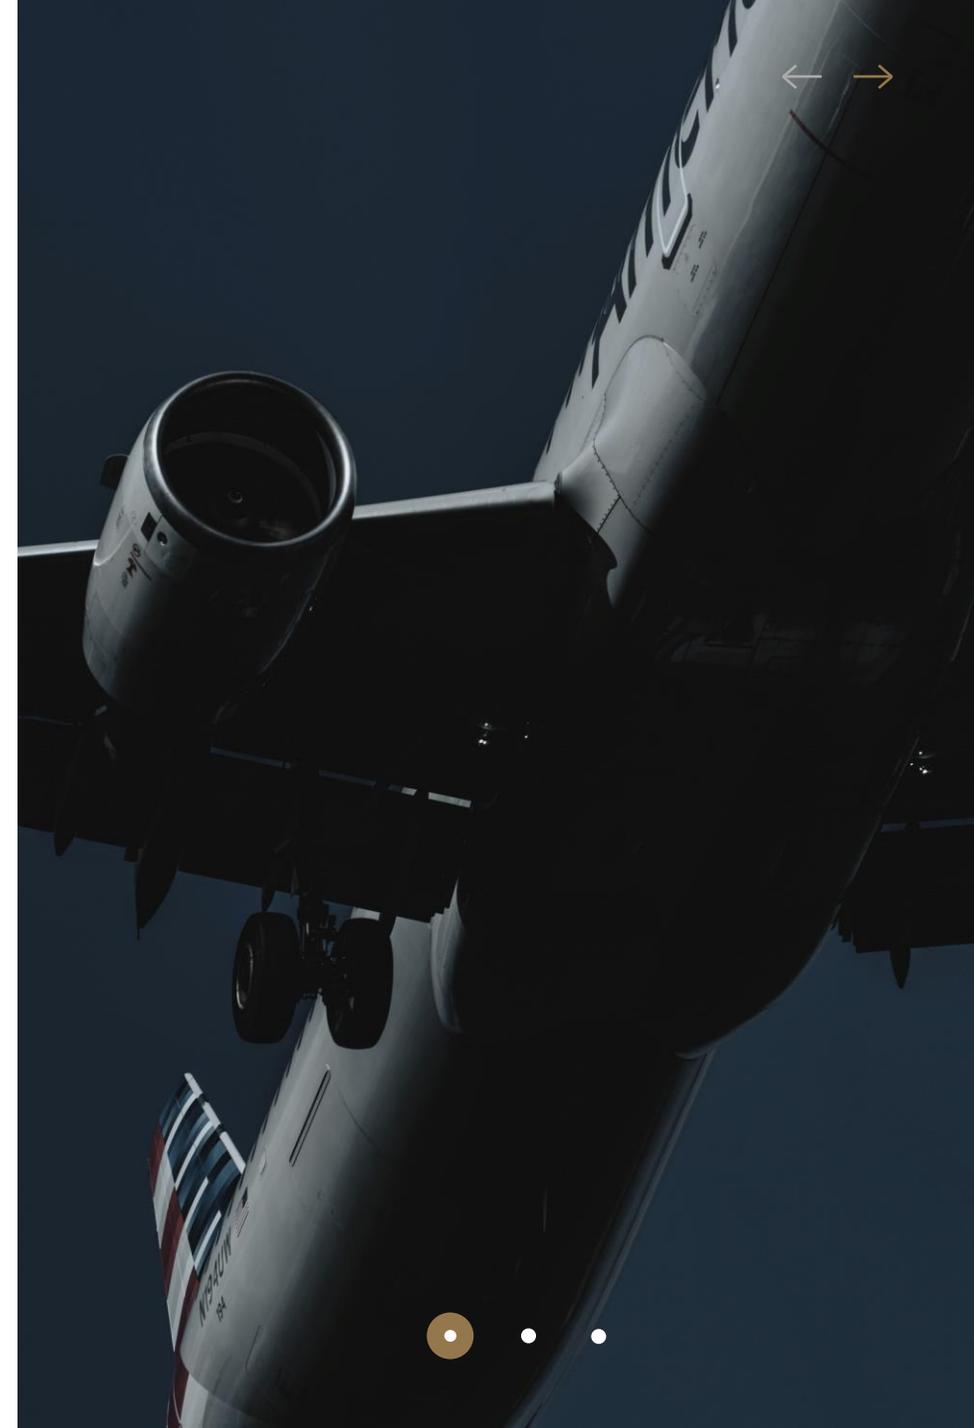

The Jetsets offers you a cost-effective entry point into private jet ownership. Aircraft require complex, expensive and time-consuming upkeep of crew, maintenance, fuel, insurance and storage – a cumbersome task for those whose time is precious.

Purchasing a share in your aircraft leaves all these headaches to us, enabling you to freely get on with the things that matter to you.

Our Flagship Aircraft

The aircraft we recommend range from HondaJet, Hawker, Embraer, to Bombardier, Gulfstream, and Boeing Business Jets (BBJs).

07.

Our Flagship Aircraft

The Bombardier Global 6000

A fuel-efficient large 12-seat private jet with ultra-long range flying capability featuring one of the most luxurious cabins in the sky

Smoothest Ride

The highest wing loading capacity in class ensures you will have a smooth ride, even in turbulent conditions.

Widest Cabin

This aircraft has the widest cabin in its class with more room than its nearest competitor, delivering maximum comfort and an exceptional cabin experience.

Greatest Reach

Do more with the record setting aircraft capable of flying from New Delhi to Miami and offering the best combination of speed, range, field performance and ride quality.

Safest Access To Baggage

What you need, when you need it: safely retrieve your personal items from the luggage compartment throughout the flight.

Fastest Internet

Available Ka-band technology will keep you connected at all times.

Our Helicopters

A quiet stateroom of elegance

The aft stateroom adds a sense of tranquility with its large windows infusing the luxurious space with light. The stateroom full-berthing divan, spacious wardrobe, independent temperature control, and lavatory area unit offer you maximum comfort.

Control At Your Fingertips

Access key cabin controls in a single click and navigate the new app to intuitively control the cabin. Thanks to a simple layout and an intuitive iconography, changing the cabin settings or media selections is remarkably easy.

A galley equipped to please

The large fully-equipped galley, with its substantial storage capacity and extensive work surfaces elevates your comfort experience with its greater meal capabilities. The galley is intelligently set between the cockpit and main cabin areas, for further passenger privacy.

Premier Comfort

With outstanding width, higher armrests and an impeccably shaped backrest, the new seats allow passengers to enjoy a delightful and inviting experience, ideally suited to long distance travel. Whether you wish to work, rest or play, time will simply fly by as you sit back in this exceptional interior.

Performance creates possibilities

Challenging airfields don't pose a problem. With its advanced wing design, the Global 6000 aircraft is capable of flying fast, but also offers approach speeds necessary to access short airfields.

We do not stop at aircrafts; we also transport our HNIs in top of the range helicopters. The helicopters are very useful for intra and intercity hops, transportation on yacht trips etc.

Some of the helicopters favoured by our clients are:

Airbus/Eurocopter

Leonardo

Sikorsky

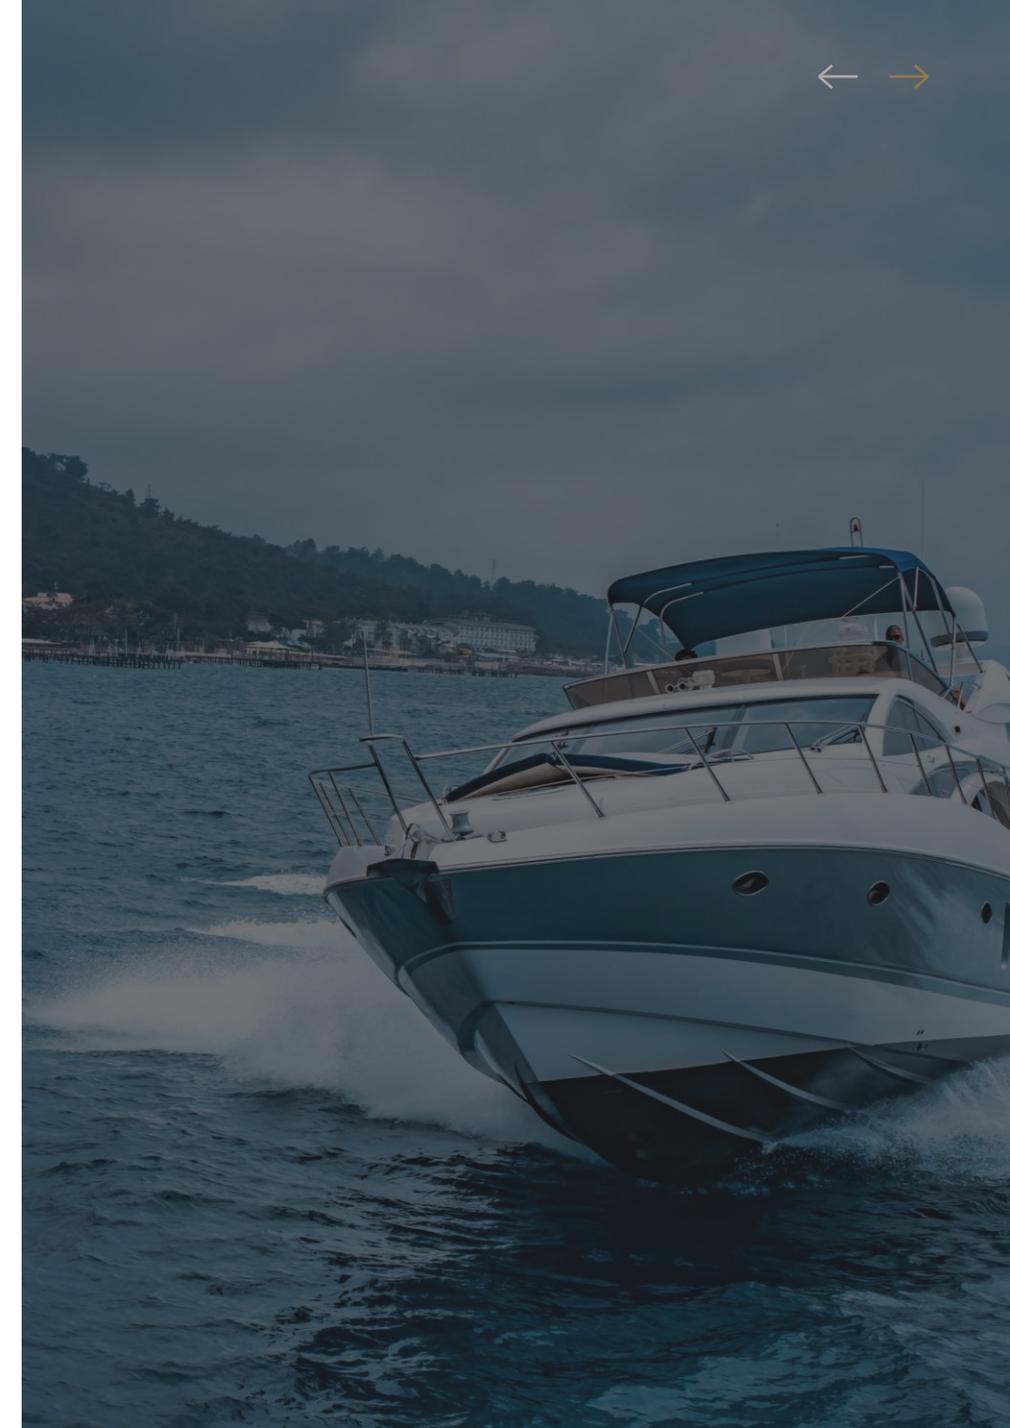

Augusta

Bell

At The Jetsets, we have a separate yacht and private islands department. This is a specific product whereby the specially invited clients have access to several yachts all-round the year.

These clients also have access to exclusive and iconic properties and private islands spread all over Europe and the Caribbean for utmost privacy and pleasure.

Fractional Ownership Product

The fractional owner will

- own a fraction of the aircraft
- pay for a fraction of the aircraft
- pay for his/her fraction cost of the Monthly Management fee
- pay for his/her fraction cost of the Occupied Hourly charge
- The Monthly Management fee and Occupied Hourly charge can be paid monthly or annually. If paid annually, there will be a 5% discount
- have ownership of the aircraft for 10 years
- can cancel the agreement at Year 5
- can upgrade to a newer aircraft at Year 5
- have the residual value of the aircraft if he cancels his/her Agreement anytime from Year 5 to 9

The strength of The Jetsets is its flexibility

Our ability to adapt solutions to the individual client's situation is our uniqueness. This is what other companies cannot provide and why we enjoy such popularity in the private aviation market.

Client A

Challenge

Client, an ultra-HNI wishes to acquire the entire 1000 hours per year to retail out to his clients.

Solution

The Jetsets worked with the client's budget and searched the private jets market for the appropriate aircraft, acquired the aircraft and placed it for the sole use of the client and his customers.

As a back-up to assist the client, The Jetsets placed our Charter department on notice should the client require support to utilise his hours.

Client very happy and signed a 5-year program with The Jetsets

Client B

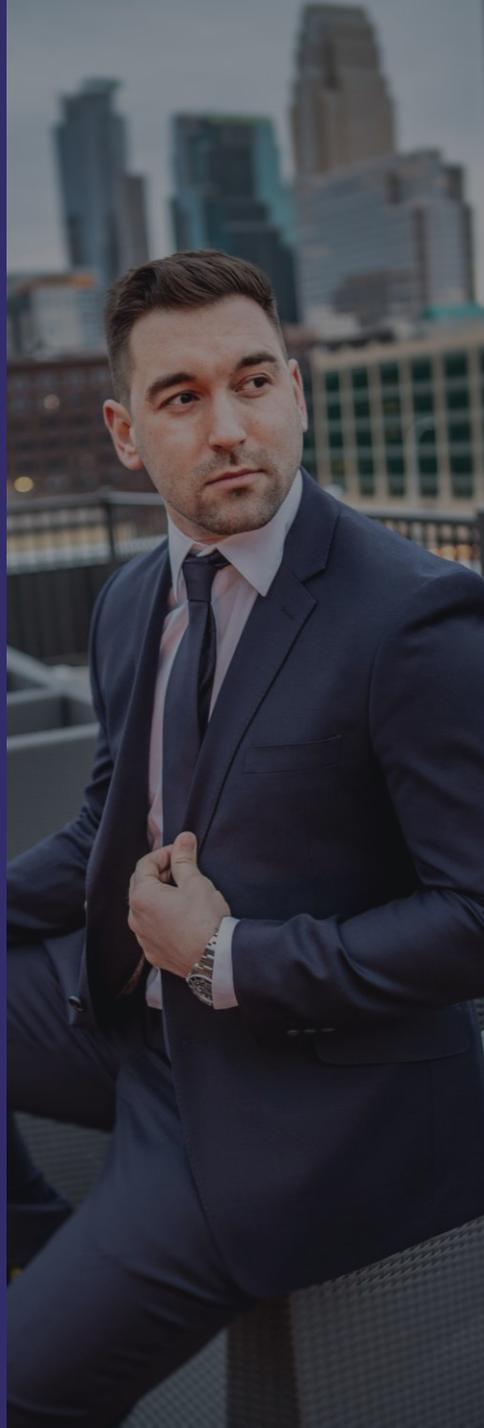

Challenge

This client wants to acquire the aircraft to take advantage of the tax benefits allowed for assets in his country. Client only requires 400 hours himself and would like The Jetsets to come up with a solution to utilise the remaining 600 hours.

Solution

The Jetsets proposed the most appropriate aircraft for the client to acquire, to take advantage of the tax benefit. The Jetsets then proceeded to sell out the remaining hours to clients on a guaranteed block-hours basis. The sale of the surplus 600 paid 60% of the running cost of the aircraft. Client very happy to have achieved both his aims of the tax benefit and effective use and cost savings that came with it.

Client C

Challenge

This client is newly introduced to private aviation and particularly to fractional ownership. He likes the idea but is worried about the 10-year contract of fractional ownership.

Solution

The Jetsets came up with a solution that enables the client to enjoy all the benefits of a standard fractional ownership but on a yearly rolling contract. Client is very happy as he is only committed to 1-year fractional contract, meaning he could decide not to renew the following year if he is not totally happy.

Client D

Challenge

Client is a very busy HNI, with business interests spread over the Middle East, Europe, US and Asia. Client must travel at short notices and wishes to save time whilst making these journeys. He only requires about 300 flying hours per year.

Solution

The Jetsets recommended a 300-hour fractional ownership for this client. The client can now travel on his personal aircraft at short notice. Whilst travelling on his private jet, he is only responsible for 30% of the capital cost as well as the management and maintenance cost. He travels safe as he only flies out and back through private terminals, having very few touch points.

Safety is an important reason, especially in this age of the pandemic, why a lot of HNIs like you are considering private aviation. Firstly, there is no queue to experience. As a private flyer, you will be the only person travelling at any time. Your luggage and passport are checked in for you by airport staff while you are sat in your limousine or in the private lounge after which you only just walk short steps to board your flight. From home till you board, you may have no touch point, so very little chance of catching COVID-19 while flying private.

Client E

Challenge

This client is a frequent private jet traveller. He wishes to have his own aircraft and he wants the aircraft financed to ease his cash flow. He has a budget in mind.

Solution

We finance aircraft purchases, as part of our services to our client. With the client's budget, we set out to procure a suitable aircraft for the client. We managed to get the aircraft that suited the client's travel needs and we financed the aircraft on terms very convenient to the client. Client very happy with the solution proffered by us and he signed a 10-year management contract of the aircraft.

Client F

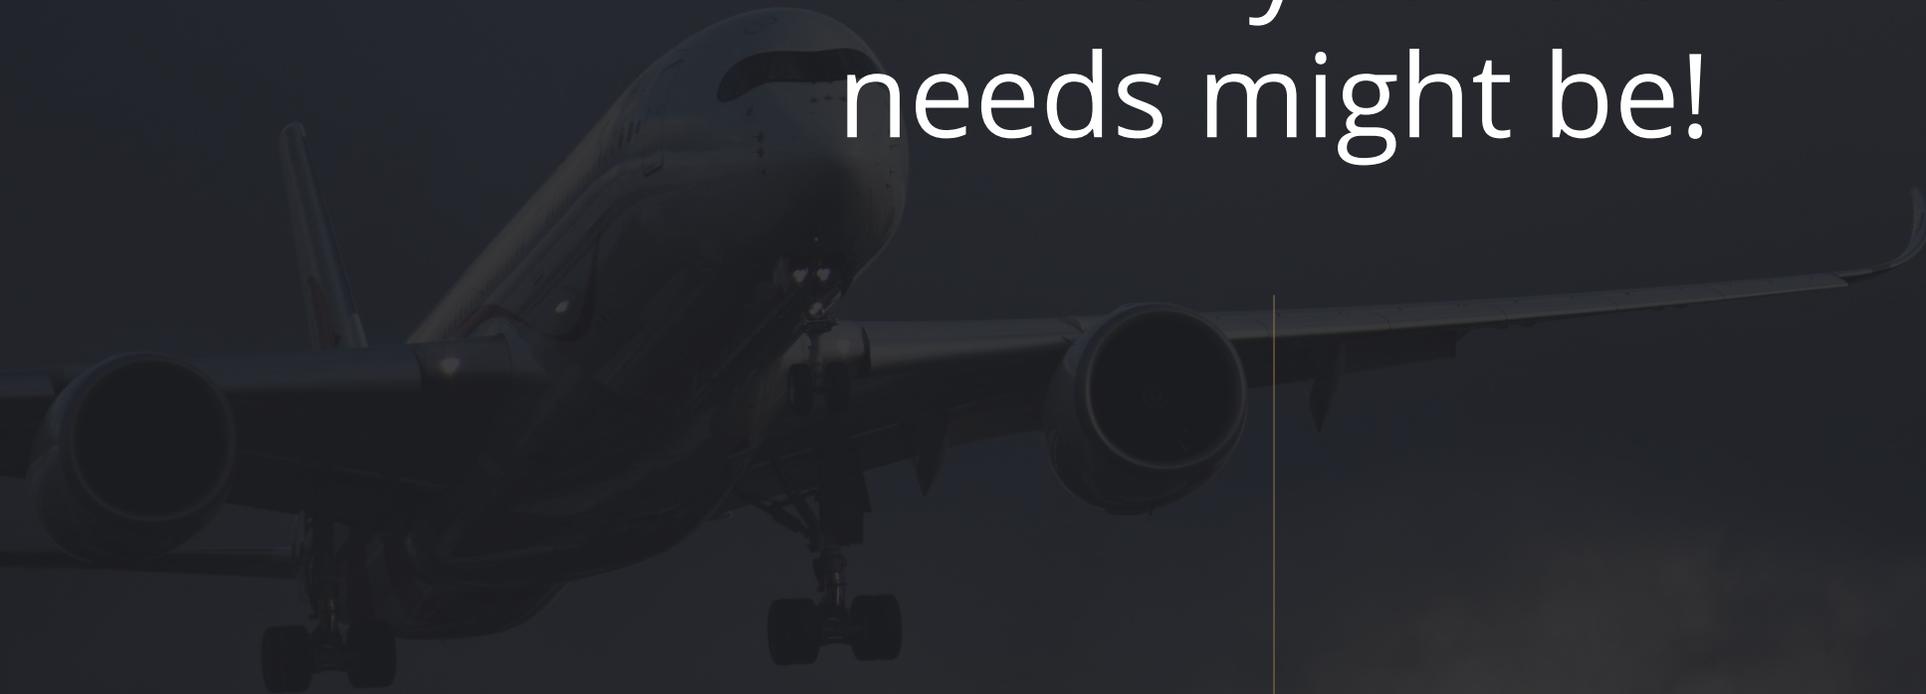

Challenge

Our client here already has an aircraft that is not been well managed. He wants to buy another aircraft, but he is worried about the management of the 2 aircraft. A call was put through to us and we sprang into action to provide a solution for the client.

Solution

We proposed a management package for the client, which he happily accepted having seen the huge difference in services and cost saving between us and the previous management company. We also assisted the client in acquiring his second aircraft. We ended up having a very happy client indeed!

We are here to serve,
whatever your travel
needs might be!

“The future depends
on what you do today”
